

## VENUE INFO

### Getting to Campus on foot

#### From Hotel Imperial

There are several ways to do this, but this is the most straightforward (approx. 1 km). Step out of Hotel Imperial and turn left, take the first left onto another pedestrian street. Walk straight ahead, then along the edge of the piazza until you get to a busy-ish road (Avenida Santa Joana). Turn right and carry on going down that road for approx. 500 metres until you come to a roundabout. Along the way, you will walk past a primary school, an intersection with traffic lights and under a funny-looking metal bridge that connects two sides of the city park. At the roundabout turn right and then cross the pedestrian crossing onto the campus. You will know you are in the right place if you can see the hospital - with its strikingly beautiful yellow mortuary - across from the roundabout. The first building you come to on campus is building 3 (where there is a cafeteria); your destination is building 2, which is right behind building 3 and looks very similar to it.

#### From Aveiro Palace

You want to go up the pedestrian street that is across from the roundabout in front of your hotel. Walk all the way up that street, along the edge of the piazza until you get to a busy-ish road (Avenida Santa Joana). Turn right and carry on going down that road for approx. 500 metres until you come to a roundabout. Along the way, you will walk past a primary school, an intersection with traffic lights and under a funny-looking metal bridge that connects two sides of the city park. At the roundabout turn right and then cross the pedestrian crossing onto the campus. You will know you are in the right place if you can see the hospital - with its strikingly beautiful yellow mortuary - across from the roundabout. The first building you come to on campus is building 3 (where there is a cafeteria); your destination is building 2, which is right behind building 3 and looks very similar to it.

### University Campus

All sessions will take place in the Department of Languages and Cultures - **building 2 on the campus map**.

Registration will be on the ground floor, and there will be signs directing you to the registration room, as well as to the rooms where sessions will take place.

### Flying to Aveiro

Aveiro does not have an airport. The nearest airport is **Porto (OPO)**. It is also easy to get to Aveiro coming through **Lisbon (LIS)**.

### Getting to Aveiro from Porto

The metro, or light rail system, is across the road outside the terminal. It is best reached through the tunnel under the road, signposted within the terminal as "metro".

You will need to acquire a card from a machine, and load trips onto the card. This is the weak point of the system, as there are often lines of foreigners trying to puzzle out the system, although there are always staff on hand to explain. This card needs to be touched to a verification point before going up the escalator to the platform.

From the airport you can go direct to **Campanhã Station** (direction Estádio do Dragão). Local trains (Urbanos) take an hour from Campanhã Station to Aveiro, and there is at least one every hour. The cost is €3.50 one way. Again, you need to get a card and load trips onto it. You can get this from the ticket office. This card then needs to be touched to a verification point before boarding the train. If you stand near the platforms you will see people doing this. You can also get a faster train, which takes around 30 – 40m. They cost around €12 – €14 one way. These trains are called Alfa (the best) and Intercidades (2nd best). You don't need to touch these tickets to the verification point, and you are allocated a numbered seat. In neither case can you get a ticket on the train, and without a ticket, you will be fined.

### Getting to Aveiro from Lisbon

In Lisbon you can get the metro just outside the arrivals terminal. You will need to buy a card and load one or more trips onto it. There are booths with people as well as machines, but there are often confused queues at both.

Three stops away from the airport, **Oriente Station** can be used for trains to Aveiro. These are Alfa (the best) and Intercidades (2nd best). You need to buy a ticket before boarding the train. This gives you a numbered seat. The ticket booths and machines you see when you emerge from the metro are not for the overground trains. You need to go up two levels and hunt for the ticket office. Be warned that the last train in the evening leaves at 10.09 p.m. It takes between 2h20m – 2h40m to get to Aveiro. Tickets cost between €21 – €27 one way roughly.

### Arriving in Aveiro

The station is at one end of a straight avenue which goes to the centre of the city. It's about a 1km flat walk. There are taxis outside the station, and as the distances are small your trip won't cost more than a few euros if you prefer. There are also local buses, but you need to know where you are going.

Hotels and guest houses are clustered mostly in the area about 1km from the station. This is also the most convenient area for getting to the university and for everything else. You can walk to the university in about 10m from most accommodation.

### Getting around Aveiro

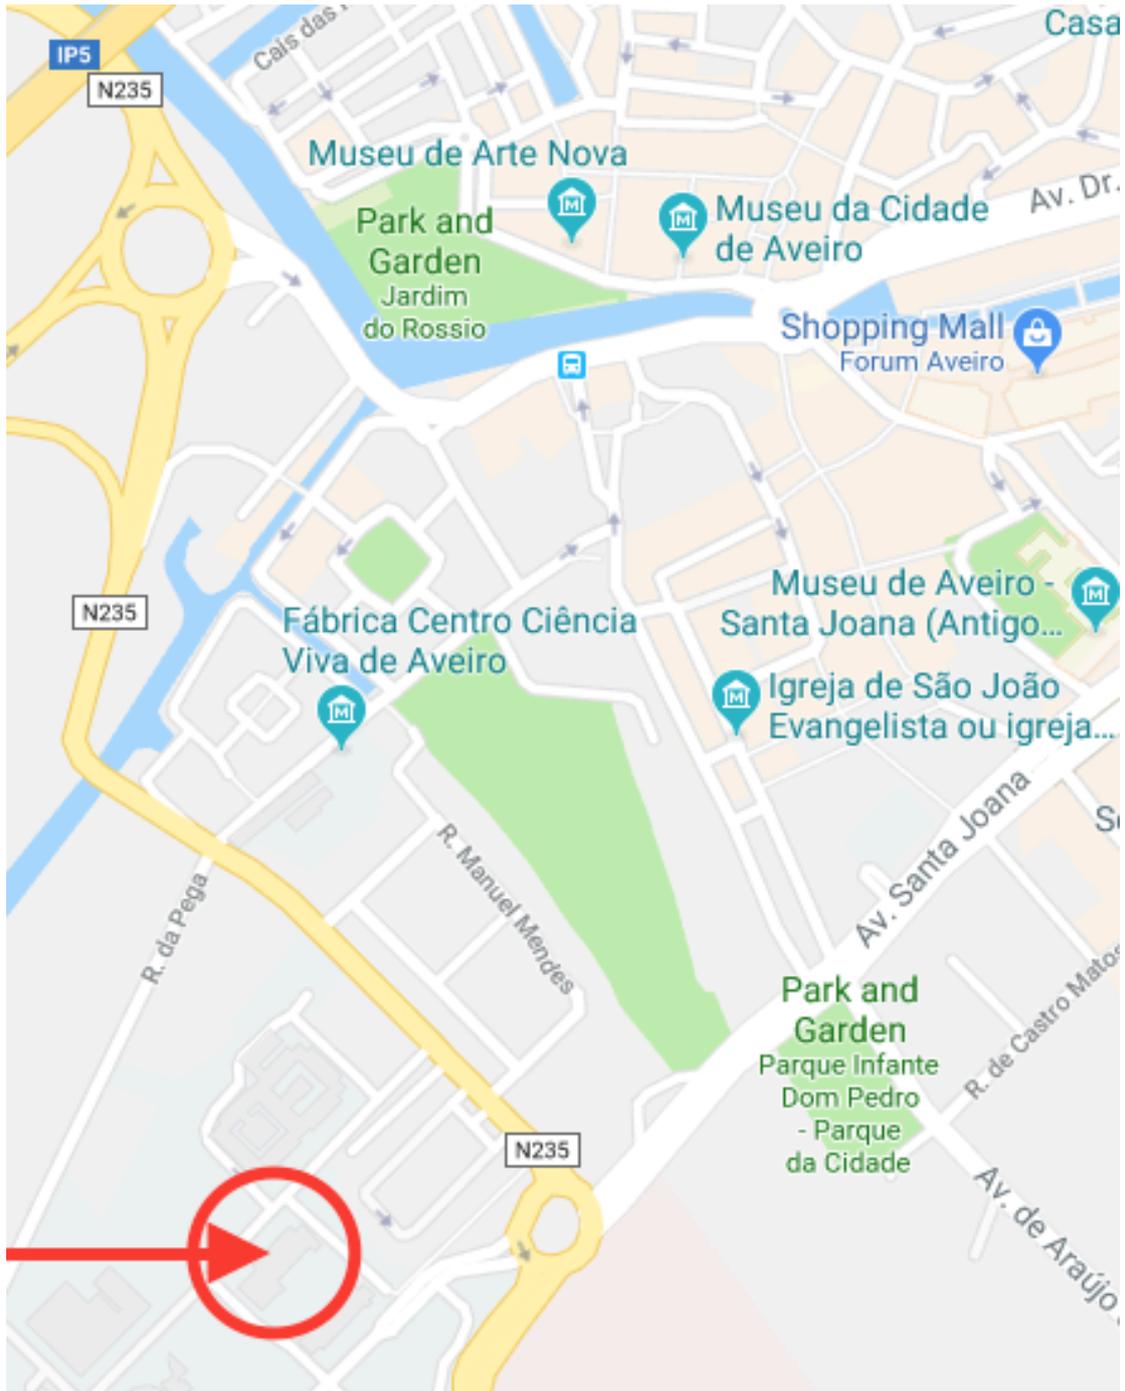

Walking will be fine for most people. There are also free bicycles here and there. Aveiro is safe at any time, including for a woman on her own.

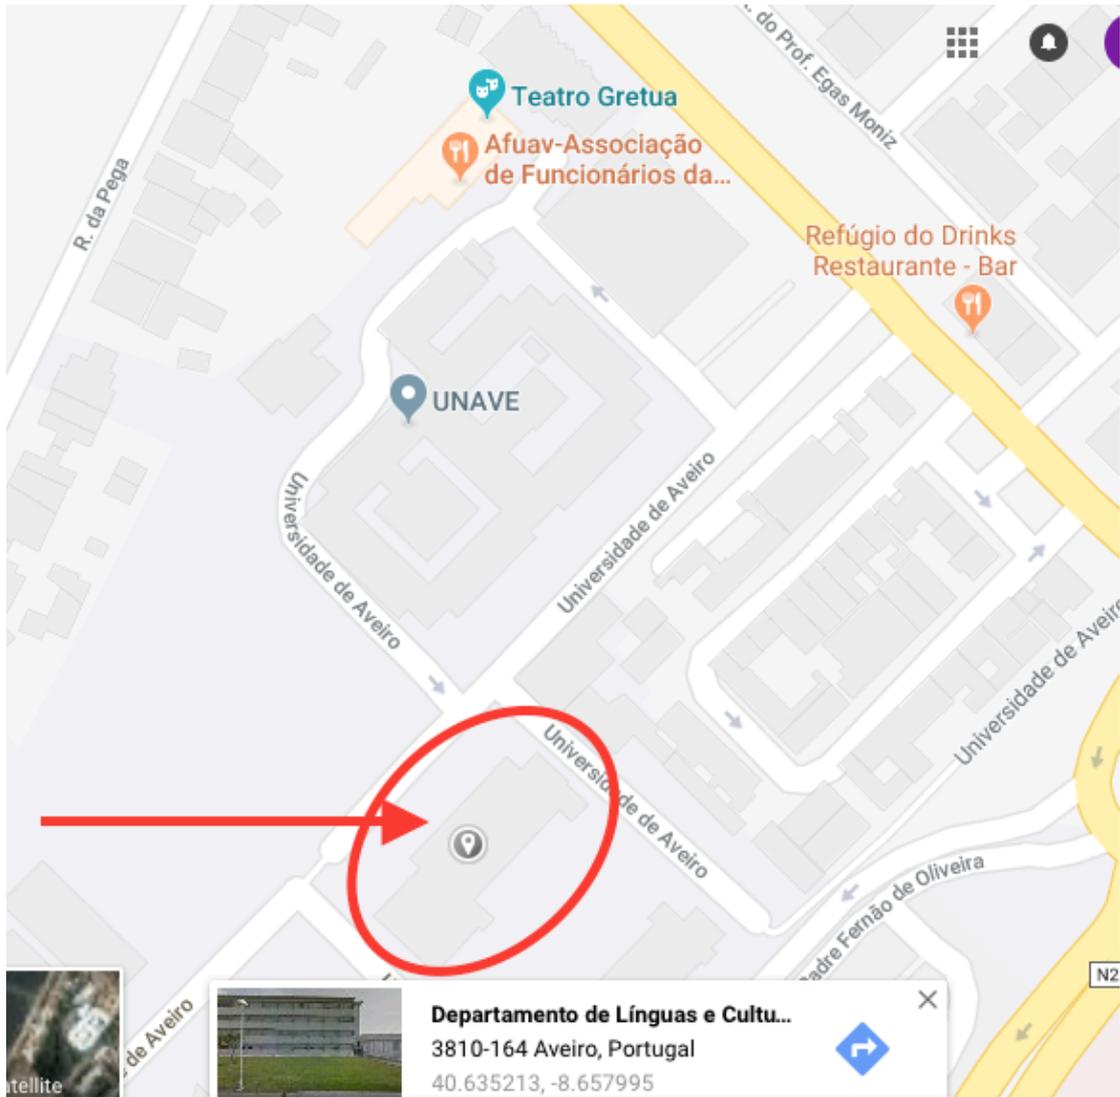

### Near Aveiro

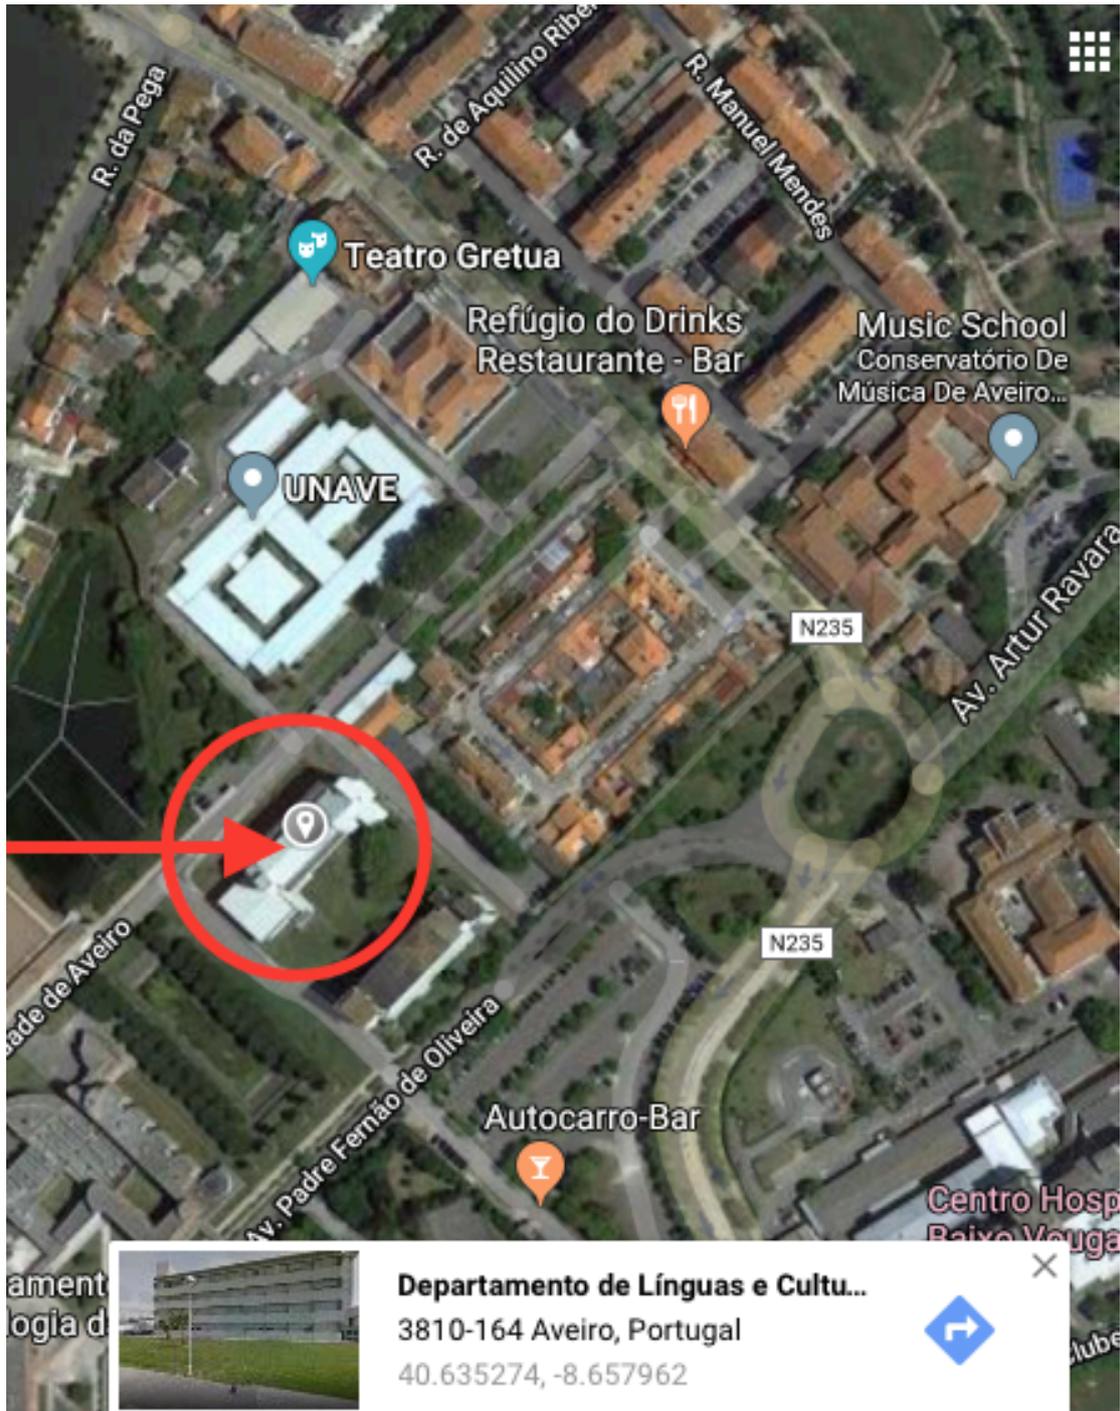

The white sand beaches are 8km away. Buses leave beside the canal heading out of the city. You have a choice of the more built up **Barra** with its lighthouse, or the less built-up, but still built-up, **Costa Nova**, with its picturesque striped houses. The water is cold, and the beach is often foggy and windy, so check the weather. It can be sunny and hot in town and cold and windy at the beach.

### Food and Drink

Portugal is very cheap by European standards. Fish and seafood are the specialties. Vegetarian and vegan food can be difficult to find. Most traditional restaurants can only offer soup, a salad or an omelet to vegetarians. There are, however, a macrobiotic restaurant (but it only opens for lunch) and two vegan restaurants. Some restaurants and cafés still allow smoking, so check the sticker on the door before entering. Bars are open until late, as are many cafés in the centre.

# MAPA DO CAMPUS UNIVERSITÁRIO DE SANTIAGO UNIVERSIDADE DE AVEIRO

O acesso ao campus de Santiago e da Agra do Crasto, onde estão instalados todos os departamentos da UA, a ESSUA e o ISCA-UA, pode ser feito utilizando a MoveAveiro, através da linha azul, n.º 4.

Aveiro é uma das paragens obrigatórias de todos os comboios da linha do Norte e é servida por carreiras de autocarros que a ligam a muitas das cidades do país.

Sendo uma cidade de pequena dimensão, o campus está a uma distância pedonal ou ciclável de todos os pontos da cidade.
